

Compostable film for postal packing – Flow Pack

Standard Printing

Compostable film for postal packing, in Flow Pack machine.

Same mechanical properties and performance as traditional polyethylene with the advantage that this product does **not pollute**, made with compostable biopolymers, does not generate microplastics or toxic residues in its degradation process.

We personalise products and have in stock the following material:

Ref.	Roll	Wide mm	Microns	Prints
BBIO350NI	2500 M.L.	350	18	Unprinted
BBIO420NI	2500 M.L.	420	18	Unprinted
BBIO480NI	2500 M.L.	480	18	Unprinted
TBIO 450NI	2000 M.L.	450	18	Unprinted
BBIO480I	2500 M.L.	480	18	Printed
BBIO500I	2500 M.L.	500	18	Printed
TBIO550I	2000 M.L.	550	18	Unprinted

Material: Biopolymer compostable according to EU 13432 and certified with OK industrial compost seal.

Print: 1 ink

Mechanised: Heat sealable, suitable for Flow Pack machines at temperatures between 110 and 120 degrees Celsius.

Properties: Damp-proof, high puncture and tensile strength, optimum coefficient of friction in processing.

Storage: 18 months in dry place, out of sunlight.
